

April 17, 2009

To whom it may concern,

Acquisition Consultants, Jonathan Moore specifically, has handled all of our real estate needs for almost five years now. He is our broker, land developer and leasing agent. Additionally, his counsel has been tremendously valuable in the search for financing in a deteriorating credit market. Under his guidance we are profitably developing our commercial real estate in West Orange County. Jonathan also found and guided our purchase of the historic commercial building which is now our firm's home. These are challenging but very financially rewarding projects for us.

Two factors set our relationship with Jonathan apart from others. First, Jonathan takes the time to understand our entire business, so that our real estate deals mesh properly with our long-term goals, cash flow needs, and the broader tax implications. Above all, we are confident of Jonathan's integrity. Time and again we have seen him put our long interests ahead of opportunities for his own short-term gain.

We have developed a rapport with Jonathan such that he knows when to explain and ask for our approval versus when to simply act on our behalf. This allows me to stay focused on our core business, entrusting our real estate matters to Jonathan.

We enthusiastically recommend Acquisition Consultants and would be happy to speak with you further about our relationship with Jonathan.

Sincerely,

A handwritten signature in black ink that reads "Glenn H. Birket". The signature is written in a cursive style with a long, sweeping underline.

Glenn Birket, P.E.
